Location Data Access

The Service offers optional functionality which requires the use of device location data, including the precise GPS location of the device gathered through its location services as well as geofencing, as provided by the Android Geofencing API. This location data is used solely in order to provide required functionality to the user, as per the user's configuration. No location data is stored or used in any other way.

Log Data

We want to inform you that whenever you use our Service, we may collect data and information (through third party products) on your device in a case of an error in the app called Log Data. This Log Data may include information such as your device Internet Protocol (“IP”) address, device name, operating system version, the configuration of the app when utilizing our Service, the time and date of your use of the Service, and other statistics. This data is used solely for the purpose of improving the Service and providing reliability, does not hold any information about the user and cannot be used to identify the user.

Service Providers

We may employ third-party companies (see the complete list at [Information Collection and Use](#)) due to the following reasons:

- To facilitate our Service;
- To provide the Service on our behalf; To perform Service-related services; or
- To assist us in analyzing how our Service is used.

We want to inform users of this Service that these third parties have access to your Personal Information as per their specifications and policies. The reason is to perform the tasks assigned to them on our behalf. However, they are obligated not to disclose or use the information for any other purpose.

Security

No Personal Information is stored or transported other than that provided to our Service Providers, which is secured up to their respective standards and policies (see [Information Collection and Use](#)). But remember that no method of transmission over the internet, or method of electronic storage is 100% secure and reliable, and we cannot guarantee its absolute security.
